If elements and sofas without or with 1 armpart are to be placed directly against elements or sofas without or with 1 armpart, a base leg Z is required and must be ordered.

**to make changes. The measures refer to the armpart SA. The depth includes the overhang with the headrest folded back. The measures include the protruding of the base with the SA armpart and refer to the finish with tucks. The measures refer to the leg height ca. 19 cm.**

**Measurements of the corner combinations:**

With this model the seat of the one arm chaises and corner sofas with ottoman the seat rises approx. 2 to 3 cm into the connecting side.

Therefore other total measures occur than by pure addition of the article measurements. Please note.

**Note on upholstery construction:**

Ticking cushions have been used in the back. These may show under the cover. This is a

typical feature of the product.

**Especially casual upholstery:**

The upholstery is especially casually processed to create a certain appearance with a super soft surface. The covers may already show a pronounced wavy appearance on delivery, which is intentional due to the design and construction and may become even more pronounced with use. This is not a quality defect, but a model-related characteristic.

**Digital fabric/leather and colour samples:**

The visual appearance of the covers and colour samples may vary, samples in accordance - colour and structure deviations possible.

### Powder-coated:

The colours M21 silver, M56 bronze and M99 black are powder-coated.

### Leg and seat heights:

Due to different leg heights, the model is available in different seat and total heights.

The leg version has to be indicated.

### Legs and floor protection:

In case of very slender furniture legs with deliberately filigree shapes and with small surfaces, it comes to a raised pressure on the floor. We recommend felt pads or another

suitable mat as protection for scratches and pressure points in connection with sensitive and/or soft floors. Even if you barely move the furniture, it can be helpful to have a carpeted floor.
